

MyDrap

There are small gestures no one notices.

The way coffee is served.

The way a napkin is folded.

The pause between one sentence and the next.

It's not that they're grand gestures.

It's the moments in between.

It's there that My Drap finds its place.

Not to take it, but to be part of it.

Because the truly important things often
go unnoticed.

It's there where My Drap dwells,
between small gestures.

Disposable textile solutions

Every My Drap
piece was born
from a small
gesture. A subtle
way to inhabit
the moment

[← Table of contents](#)

Hand towel

A discreet presence for the small everyday gestures.

Hand towels made from Ottoman cotton offer a soft and absorbent alternative to traditional towels.

27 x 20 cm

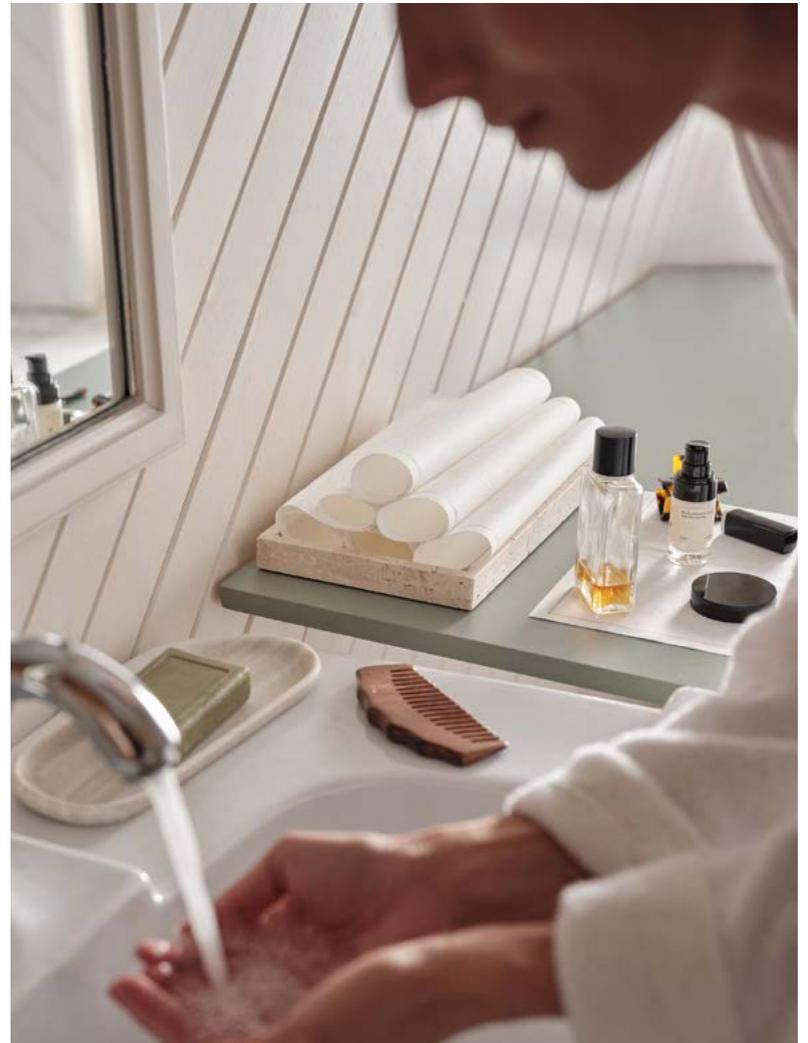

32 x 25 cm

Care mat

The care mat, made of 100% cotton with non-slip treatment, adapts naturally to any surface.

A textile underlay for small personal care items.

25 x 25 cm

25 x 18 cm

← Table of contents

Tray liner for room service.
Customizable, non-slip
and adaptable to any size.

Tray liner

Customizable size

Designed to complement cocktails, appetizers and receptions.

Small format.
Endless possibilities.

Made from 100% cotton, recycled cotton and linen.

Available in different sizes and colors.

Multiple options for customization.

Event napkin

- 10 x 10 cm
- 10 x 20 cm
- 11 x 11 cm
- 15 x 15 cm
- 20 x 20 cm
- 25 x 25 cm

← Table of contents

Placemat

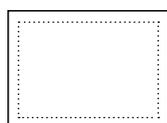

Designed to frame the moment.

Practical and versatile.

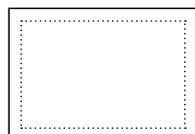

Made from 100% cotton, recycled cotton and linen.

Available in different sizes and colors.

Multiple options for customization.

40 x 30 cm

50 x 30 cm

40 x 100 cm

Coaster

Compact form and clear function.

Designed to complement drinks with elegance

Perfect for outdoor dining and bars, where every little gesture counts.

10 x 10 cm

10 x 20 cm

11 x 11 cm

Table napkin

Conceived to bring texture, order and presence to the table.

Made from 100% cotton, recycled cotton and linen.

Available in different sizes and colors.

Multiple options for customization.

15 x 30 cm

20 x 40 cm

25 x 50 cm

30 x 30 cm

38 x 40 cm

Each design is an opportunity to tell your story.

Our exclusive technology allows you to customize every piece with colors, logos, messages or illustrations.

Whether in rolls, pre-cut, flat or folded, we adapt the format to your needs.

Because every table is unique, just like the story it tells.

Made to say who you are

[← Table of contents](#)

Every piece,
from the first thread
to your table,
passes through our hands.
And that's where it stays:
in what can't be seen,
but can be felt.

Industrial design inspired by our heritage

Adds presence without imposing it

My Drap designs disposable natural fiber textiles that combine everyday functionality with attention to detail.

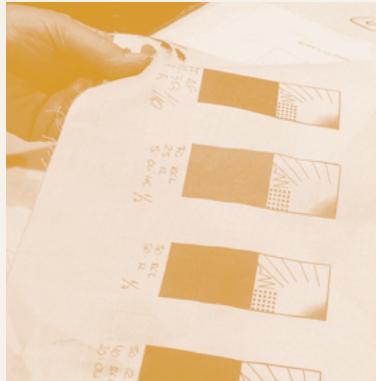

Each piece is manufactured in Barcelona, using our proprietary processes that prioritize quality, innovation and sustainability.

Designed to blend in naturally, wherever they may be.

Our origins

My Drap was born in Texia, a group with more than 100 years of tradition, where expertise in textiles meets functional design

Texia, the industrial group behind My Drap

My Drap is part of Texia, a family-owned textile group based in Barcelona founded in 1917.

Texia combines industrial experience, expert design and in-house production through brands such as:

- Roll Drap, the choice of professionals.
- Athos, with a more crafted feel.
- TEXIA Finishing, specialized in textile preparation, finishing, printing, and dyeing.

This is where Seamless technology was born, originally developed for Roll Drap, then perfected for My Drap. It is Texia's exclusive system that eliminates seams and threads for clean, precise, residue-free textile finishes.

A textile manufacturer with design vision

What sets us apart

Pioneers in disposable textiles

We were the first to imagine a disposable textile with purpose: blending sustainability, eye appeal, and practicality.

Exclusive Seamless technology

No seams or threads. A textile innovation developed exclusively by Texia that ensures clean, precise finishes.

Made by My Drap in Barcelona

From design through to production, we oversee each step of the process to ensure the highest quality and complete traceability.

Versatility that adapts to every situation

Sizes, colors, finishes, customization. Our textiles respond to your different needs without losing their own style.

Committed to sustainability

Compostable materials, responsible processes, durable design.

It's not just about doing it right, it's about the vision behind it.

Every decision on design, manufacturing, use, etc., responds to a deliberate way of being present

A deliberate way
of being present

Processes

Designed to
fulfill a function,
and then return
to the earth

We believe in a way of being that leaves no trace, or, at least, not the wrong one.

We work with natural, recycled and compostable fibers, selected for their origins and their destination, materials that return to the earth, leaving no waste behind.

We design products that fulfill their function with precision, while also respecting the environment with every use.

A process designed to care, to reduce and to give back

We produce locally, in our factory in Barcelona, where we oversee every stage of production to ensure they meet our criteria for efficiency and sustainability:

- Our exclusive Seamless technology eliminates the need for seams and threads.
- A part of the energy we use is renewable.
- We treat and purify our own wastewater.
- We perform annual atmospheric emission checks.
- We use residual heat from our textile lines to reduce our gas consumption.
- And, every year, we improve our waste segregation, recycling and recovery.

We were not the only ones saying this. It's backed by international certifications that recognize our bona fide commitment to the environment

Rigor as the bedrock of
experience

At My Drap, everything happens under one roof

From selecting the materials to the final fold, every step of the process is designed to maintain the essentials: control, consistency and excellence.

A rigorously planned end-to-end process

Cutting, printing, packaging: every step follows a precise logic perfected over decades.

At the heart of it all, our Seamless technology

An exclusive innovation from Texia that eliminates the need for seams and threads. Reduces waste and produces finishes that are as clean as they are functional.

A system that doesn't just streamline

It also defines a way of being in the world: mindfully, with intent, and without fanfare.

In good company

Where we are

Over the years, more than 3,500 clients (brands, hotels and venues around the world) have entrusted us to be part of their special moments.

This is a sample of the network of partnerships that we continue to build, one step at a time.

Details that matter

Materials

[← Table of contents](#)

Classic

Discreet, versatile, impeccable.

A fabric with a smooth surface and no visible texture, a perfect natural and elegant complement for any occasion.

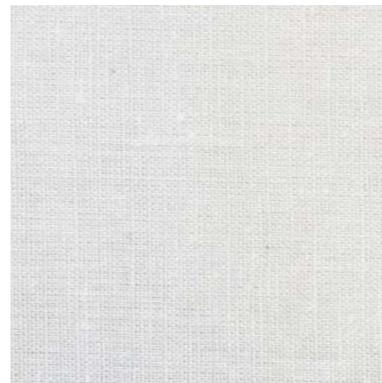

Recycled

A choice with a positive impact.

Our most sustainable option, made from 55% recycled fiber. Respects the environment without compromising the textile experience.

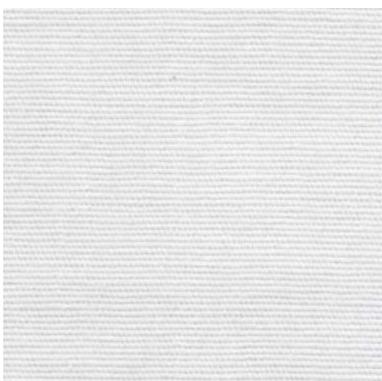

Linen

Our most prestigious fabric.

With long fibers and a natural creases, this is our premier choice for cocktails and special occasions. Sophisticated, light and full of character.

Ottoman

Visible texture, rustic feel.

More open weave and thicker thread provide a pleasant feel and natural aesthetic. Perfect for informal settings with a touch of authenticity.

Twill

More body, more presence.

Robust build ensures strength, distinctive texture, and unmatched absorbency. Perfect for napkins and coasters with a touch of refined elegance.
